Rooke® HFS Boot

The best choice for providing excellent offloading of the heel while naturally warming the limb

Rooke® HFS Boot with foot drop strap attached.

How Rooke® Boots Work

- Soft and lightweight fabric throughout for high patient compliance
- Closed cell foam for redistribution of pressure for the entire leg
- Soft foam for extra heel protection
- Two additional foam pads for safety and protection of the plantar surface
- Complete off-loading

*Best outcomes in the industry for prevention of heel breakdowns

Indications for Use

- Lower extremity ischemic wounds & existing pressure ulcers
- Vasopressed & intra-aortic balloon pumps
- Spinal cord injury
- Ventilator dependent
- Low Braden scores
- Therapeutic hypothermia
